A Family
Medicine
Without
Alcohol
Ayer's Sarsaparilla is a tonic and alterative, free from alcohol. What is a "tonic"? A medicine that imparts strength or tone; a medicine that builds up, gives vigor and power. What is an "alterative"? A medicine that alters or changes unhealthy action to healthy action. Ayer's Sarsaparilla does all this without stimulation. Ask your doctor if a family medicine, like Ayer's Sarsaparilla, is not vastly better without alcohol than with it.

WHAT KEEFE SAYS OF HAWAII

Reference to Labor Conditions
In Annual Report to
Secretary.

Commissioner General of Immigration Keefe in his annual report to the Secretary of Commerce and Labor makes the following reference to Hawaii:

Another phase of stimulated and induced immigration which has engaged my very particular attention during the past year arises out of the peculiar situation concerning labor in the Hawaiian Islands. For many years there have been two demands going up from that Island Territory, sometimes distinct and sometimes merging into each other, viz: (1) for the introduction of white settlers and laborers with the idea of Americanizing the Islands, and (2) for the introduction of cheap labor, American or European if possible, but cheap labor of some kind in order that the principal industry of the Territory, the raising of sugar, may be carried on "successfully." Two organizations in particular have been engaged in these projects, viz: the Territorial Board of Immigration, a body organized under an act of the Legislature to stimulate immigration in accordance with Section 6 of the Federal Immigration statute, allowing Territories to encourage the settlement therein of foreigners, and the Hawaiian Sugar Planters' Association.

In December, 1910, acting under your instructions, I made a visit to the Hawaiian Islands for the purpose of conducting some investigations, at first hand regarding certain allegations and complaints which had come before the Department with respect to the importation of laborers, their treatment after importation, and allied subjects. Under date of January 25, 1911, I submitted to you a detailed report supported by various exhibits; but it seems proper to recall here, in very brief form, the conclusions at which I arrived with regard to the more important questions covered by my investigation. That investigation, I may add, was conducted with an eye single to the procurement of facts concerning the importation of laborers, the wages paid, and the conditions of life offered in the Islands.

The sugar planters are either sincere in their declared desire to Americanize the Islands or else their efforts are at cross-purposes with their ambition. If the people of Hawaii, and the sugar planters in particular, wish to bring the Islands up to the general standard of an American Territory, some substantial inducement must be offered to labor, for both field and mill work. In the way of increased wages and better working conditions, wages should not, of course, be increased beyond a point where the business of raising sugar can be conducted profitably; but it is evident that a considerable increase can be made and the planter still receive a good return on his investment. The standards of living of the American, and of the European also, are very much higher than those of the Oriental, the Porto Rican, or the Filipino.

This difference between what is required to content the American as distinguished from the other laborers mentioned has of itself a strong tendency to set so low a standard of wages and living as to discourage the Americanization of the Islands. I am satisfied that to extensive beneficial results will flow from the work of the Territorial Immigration Board until it receives cooperation of such a kind and degree from the employers of labor as will make it worth while for the European induced by the Board to come to the Islands to remain there. This is proved by the fact that many of the Spaniards, Portuguese, and Russians who heretofore have been imported by the Board under the exception to the Federal statute have remained on the Islands only a very short time, some of them only long enough to obtain funds from relatives abroad or friends on the mainland with which to make the comparatively short voyage to San Francisco, where better wages and living conditions await them.

The Bureau's attitude with respect to the importation of aliens for settlement in the Territory is this: So long as care is exercised in the selection of the people and they are morally, mentally, and physically fit to enter under the law, there is no objection to their introduction; but it believes that, in view of the conditions existing in Hawaii (which were mentioned in detail in my report of January last, but which can not be repeated here for lack of space), no one who has the permanent interest of the Territory at heart should encourage the introduction of Asiatics or of diseased or pauperized European settlers.

ANAHOLA AND KAMALOMALO LEASE

The land lease for the Anahola and Kamalomalo lands was bought yesterday by the Maale Sugar Company for an upset price of \$1,332.89. There are a little over three thousand acres involved altogether.

The lease is the most complicated that has yet been drawn up and has been commented on several times by the Governor, who had a great deal to do with the arranging of it. When it finally expires it will mean that over three thousand acres of government land have been permanently improved and made ready for the homesteader.

MAKE NEW SOUNDINGS FOR HILO WHARF SITE

In order that the plans and specifications for the Hilo wharf, now being prepared by Superintendent of Public Works Marston Campbell, may be worked up, new soundings are being made in Kihuna Bay.

It is stated that the new soundings are necessary owing to the fact that the site chosen by the Hilo Railroad Company is not altogether approved by the Commissioners. The rails will not be laid until the wharf is nearing completion.
